Education

Universidad Tecnológica de Pereira

BSc in Computer Science,

Expected graduation: December 2019

Risaralda - Colombia

2014 – present

Experience

Vocational.....

Web developer

Universidad Tecnológica de Pereira, www.utp.edu.co

Job of halftime as developer in the section of computer and educational resources (CRIE), administering the web pages of the university using HTML, CSS, and PHP.

Detailed achievements:

- Implementation of the responsive views, improving the visualization on devices of small screen;
- Implementation of a translator on an app using Symfony (framework of PHP), improving the usability;

Risaralda - Colombia

2016 – present

Achievements

- ACM ICPC - World Finals qualification, Beijing - China. 2018.
- Second place, ACM ICPC South America-North Regional Contest. Bogotá, Colombia. 2017.
- Third place, XXXI Maraton Nacional de Programación ACIS REDIS, Colombia. 2017.
- First place, Sixth Internal Programming Contest. Universidad Tecnológica de Pereira. 2016.

Complementary studies

- Programming Contest Training Camp Argentina, seventh edition, Universidad Nacional del Comahue, Neuquén, Argentina, July 2016.
- Machine Learning Virtual Course, Stanford University - Andrew Ng.

Personal projects

- Using the knowledge learned in my course of signals analysis and machine learning, I created a neural network that does speech recognition, using this I created a virtual chess that lets you play it using the voice, something very useful to people with vision problems.

Languages

Spanish: Native

English: Good

Computer skills

- Knowledges in languages as C/C++, Python, Java, HTML, CSS, PHP, JS.
